## Fronix FCK15-2019

Fronix is an EQS that empowers organization to optimize their business while driving revenues and increasing productivity, and establishes an instant connect with the customer to seamlessly deliver an immersive Customer Experience. The process of strategically managing the customer journey and customer experience within your organization can be done seamlessly with our different solutions tailor-made for the customer

Ranging from Fronix FCK15-2019 on Mobile which acts as a Virtual Queuing System provide customers with ticket queues on queue management system mobile app.

Fronix FCK15-2019 over Web is a sophisticated web based online appointment booking module which helps in Digital Queuing.

Fronix FCK15-2019 within Branch is our most intelligent, advanced and powerful Queuing Machine or token machine that initiates customer's journey in the retail branch.

- Model as per Buyers Requirement available
- Reduce waiting times accurately
- Integrates with different platforms
- Analysis & customer journey mapping
- Increase staff efficiency using reports and dashboards
- Enables you to engage waiting customers with digital signage

### Generic

Type Of Information Kiosk	Processor Based
Type Of Enclosure	Mild Steel
Thickness of Enclosure (mm)	1.6
Chassis	Screw less
Mounting	Wall Mount

### Configuration

Processor Make	Intel
Processor Configuration	Dual Core or higher
Processor Speed (GHz)	2.2
Operating System (Pre-loaded)	Window 10
Memory (GB)	4
Storage/HDD (GB)	500

### Display

Display Size (inches)	15.6
Display Type	Color LED touch Screen
Touch Type	Surface Acoustic Wave (SAW)
Antiglare & Overlay Tempered vandal resistant glass thickness (mm)	6.1
Screen Resolution (pixels)	1920 x 1080
Brightness (Nits)	450

USB Port 2,0	4
USB 3 or Higher	2
VGA Port	Yes

### Fronix LS 450 Laser Barcode Scanner, Handheld 1 D USB Wired Barcode Reader Optical Laser High Speed for POS System Supermarket

- Compatible with Windows, Mac and Linux OS.
- Fast and accurate scanning.
- Manual trigger and automatic scanning mode.
- Strong decoding ability.
- Standard 2M straight cable.
- ABS + PC body for additional durability.
- 100 times per second decoding speed.

#### 32-BIT UPGRADED CPU

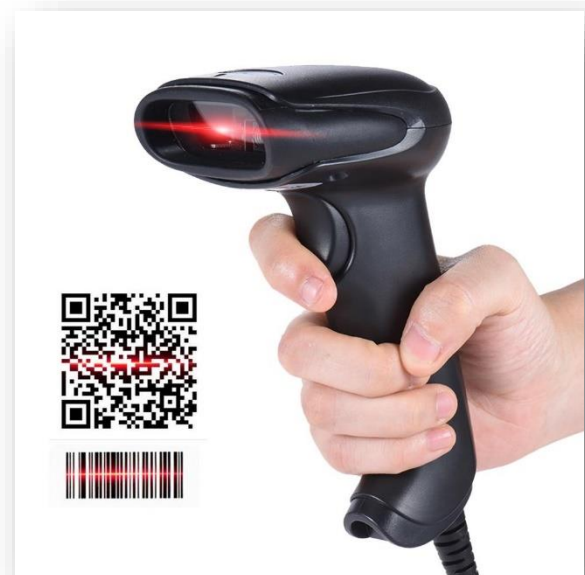

Designed to achieve perfect in terms of faster scanning and higher precision than other similar products. Reaches up to 100 scans per second.

#### WIDE SYSTEMS COMPATIBILITY

It can work seamlessly on Windows, Mac or Linux OS to seamlessly scan and upload barcodes to Word, Excel or other software application.

#### ANTI-SHOCK AND DURABLE

Made using pristine quality ABS + PC body to let you ensure that a little rough and tough use will not hinder your tasks.

## Fronix FVWM60 volumetric weight scale

The system can automatically capture the ID, dimension and weight of virtually any product or parcel. Incredibly, the cost of this dimensional weight (dimensioning) system is almost 70 % lower than the solutions offered by competitors. Thanks to such reasonable pricing, even small and middle-sized companies are now able to take their inbound and outbound logistics to new heights. Use of the system also improves delivery accuracy and reduces freight costs.

### Efficiency and savings for the logistics

This innovation is especially useful for 3PL: s (third party logistics), wholesale and online businesses, distribution centers and dispatch functions. Within these areas, companies deal with steady flows of new products, whose product data is rarely precise. However, once exact product data becomes available, it is possible to use the right size packaging, which significantly reduces packaging costs and transportation charges. Besides being a considerable expense, oversized boxes are also bad for the company image and customer satisfaction.

The dimensional (volumetric) weighing scale also helps with quality assurance in the dispatch phase. As weighing accuracy is five grams, it is possible to ensure that the weights tally with the list of collection.

### Dimensional weight and volumetric weight

**Dimensional weight**, also known as **volumetric weight**, is a pricing technique for commercial freight transport (including courier and postal services), which uses an estimated weight that is calculated from the length, width and height of a package.

Type of DWS Machine	Dynamic
Rated Load/ Capacity (kg)	60
Resolution (gms)	20
Weighing Accuracy	±10 g
Material of Platform	SS
Pan/ Platform Shape	Square
Display	LED
Display should show weight and dimensions both on the screen	Yes
Maximum Measurement Time in second	3 sec
Connectivity to Computer	Yes
Connectivity module	USB
Number of USB ports	1
Data communication port	1 RS232
Number of Ethernet ports	1
Article weight and Dimensions measured by the equipment should be automatically transferable to the computer	Yes
Power Requirement	mains operated
Power supply	230 V, 50 Hz, Single Phase
DC Operating voltage in Volts	12
Availability of conveyor paired with the platform	No

## Fronix E-F1 Air Purifier

Takes in air from the sides and bottom, releases pure air from the top at an angle appropriate to ensure optimum air circulation. An award winning design, developed keeping in mind Fronix User Experience principles, the home air purifier offers a seamless product experience that is completely DIY in terms of installation, usage & filter replacement. No sharp edges, an anti-fall design with zero exposure to filters ensures that there is no risk to your children if they happen to touch the home air purifier.

**Color: Black, Silver, Golden**

\* DC Input: 12V / 1000mA

\* USB Output: 5V 1000mA

\* Rated Power: <8W

\* Negative Ion Release:  $3 \times 10^6$  PCS/cm<sup>3</sup>

\* Noise: <38dB

\* Space: <10m<sup>3</sup>

\* Working Temperature: -10°C ~ 45°C

\* Fan: Spiral fan

\* Material: Aluminum alloy + ABS

\* Dimensions: Height 167mm, diameter 68mm

- Three stage advanced filtration system that removes pollutants with more than 99% efficiency
- Washable pre-filter that removes larger dust particles, pet hair/dander, soil etc.
- Combined filter with High-efficiency HEPA and activated carbon filter that removes any microscopic pollutant and allergens above 0.3 microns including PM2.5 and pollens
- It also removes formaldehyde, toxic gases, VOCs & odors
- Completely 'Ozone Free' Air Purifier. Does not emit any harmful gases as a byproduct of the filtration technology
- Approximately 3000 hours of filter life, basis the ambient pollution can work for a year if used for 8 hours' daily
